

GK TRAINING SERVICES LIMITED - BURSARY AND FREE MEALS STATEMENT

Aim

GK Training Services Limited is committed to ensuring that all young people who are engaged on our learning programmes are informed of their entitlement to bursary payments and free meals which will allow them to continue in learning without any financial hardship.

For this statement, the bursary and free meals allowance are monies received from Government and monies included in GK Training Services budgets to allow further financial support to learners.

Our Commitment

- We will assess the young person's actual need for financial assistance before determining whether to award a bursary.
- We will use our discretion to make bursary awards to young people in ways that best fit their needs and circumstances.
- We will target bursary awards towards young people facing financial barriers to participation, such as travel costs, meals etc.
- We will not discriminate against our learners based on their protected characteristics.
- We will determine the frequency of payments of the bursary. This will usually be on a weekly basis in arrears.
- We will only pay the bursary on condition that the learner meets the agreed standards set by us, relating to attendance and standards of behaviour.

H Johnson-Tonks (Managing Director)
